Career Objective

Motivated Computer Science undergraduate with strong interest in software development and problem solving. Skilled in building web applications using modern technologies and applying data structures and algorithms to solve real-world problems. Seeking opportunities to contribute to scalable software solutions while continuously improving technical expertise.

Education

VNR Vignana Jyothi Institute of Engineering and Technology, Hyderabad

B.Tech in Computer Science and Engineering

Expected Graduation: 2028

Race Junior College, Hyderabad

Intermediate (MPC)

Projects

Lost and Found Portal for College

Technologies: React.js, Node.js, Express.js, MongoDB

- Developed a full-stack web application that allows students to report and search for lost items on campus.
- Implemented backend functionality using Node.js and Express.js to manage item submissions and retrieval.
- Utilized MongoDB to store and organize lost item records efficiently.
- Designed responsive user interface components using React.js to enhance user experience.

Smart Healthcare System

Technologies: Java

- Developed a healthcare management system to maintain and manage patient records.
- Implemented modules to add, update and retrieve patient information efficiently.
- Applied object-oriented programming principles for system design.

Shopping Cart Web Application

Technologies: HTML, CSS, JavaScript

- Developed a simple e-commerce shopping cart system for product browsing and purchasing.
- Implemented cart management and purchase cost calculation.
- Improved understanding of frontend interaction and web workflows.

Technical Skills

Programming Languages: C, C++, Java, JavaScript, R

Web Technologies: HTML, CSS, React.js, Node.js, Express.js

Databases: MongoDB, MySQL

Developer Tools: Git, GitHub, VS Code, Eclipse

Core Concepts: Data Structures and Algorithms, Object-Oriented Programming, Problem Solving

Certifications

- Solutions Architecture Job Simulation – Amazon (Forage): Completed practical tasks related to designing scalable cloud architecture.
- Software Engineering Job Simulation – JPMorgan Chase (Forage): Gained exposure to real-world software engineering workflows and problem solving.

Roles & Responsibilities

- Member – Computer Society of India (CSI), VNRVJIET
- Member – VJ Startups Technical Club, VNRVJIET
